

**COUNTY OF ERIE  
DIVISION OF PURCHASE**

**MEMORANDUM**

**TO:** All Departments  
**FROM:** Bridget A. Corcoran, Director of Purchase  
**DATE:** April 1, 2011  
**SUBJECT:** Bid# 211046-002 Dumpster Rental & Waste Disposal Results

\*\*\*\*\*

Attached please find the results of the Dumpster Rental & Waste Disposal bid recently awarded by the Purchasing Department.

Departments will be responsible for contacting the vendors to arrange for any changes to their service. This shall include scheduling removal of existing service and scheduling delivery of new can.

Please note...bid also includes **countywide** pricing for temporary 30/cu yard containers, landfill and transfer station disposal.

We will make every effort to consolidate any additional needs in future bids.

Thank you!

Waste Management – Vendor # 109211  
Contact: Jackie Bialaszewski

## **22. Disposal of Solid/Bulky Waste at Landfill or Transfer Station**

The County of Erie is soliciting bids for the disposal of solid and bulky wastes which originate from County facilities and will be transported by County vehicles, to a vendor's landfill or transfer station.

The award of this bid will be for the period of April 1, 2011 thru March 31, 2012 and will include the option to extend for two additional one-year periods, as described in these bid specifications.

The total annual waste to be disposed of is estimated at 2,000 tons per year. This amount is only an estimated quantity, based on the latest annual totals available. The County does not guarantee any specific tons per year and will pay only for actual tonnage disposed.

The County of Erie will accept bid prices for disposal of waste at vendor's landfill site or drop off of waste at vendor's transfer station.

### **MATERIALS TO BE DISPOSED OF:**

"Solid wastes" generated from residential, commercial, institutional and industrial sources that are typically collected by the County's trucks, or by other vehicles as may be designated from time to time by the County. Typical components of such wastes include household garbage and rubbish, refuse, construction and demolition debris, yard waste, and bulky wastes, from food service operations, offices, schools, hospitals, extended care facilities and clinics. Specifically excluded are regulated medical wastes that are categorized as potential infectious wastes, industrial process wastes, sludges, septic tank pumpings, regulated hazardous wastes, junk automobiles, pathological wastes, tires and white goods, that are typically too large and/or dense to be collected in packer trucks.

"Bulky wastes" shall be construed to include furniture, carpeting and other large and/or dense materials that may be disposed of in a sanitary landfill but not in a construction and demolition debris landfill.

"White goods" shall be construed to include appliances such as stoves, refrigerators, freezers and similar items.

The County will deliver to the vendor's landfill or transfer station solid wastes, including bulky waste, it collects from various Erie County facilities such as Parks and County buildings.

There shall normally be no delays in excess of thirty (30) minutes waiting time to discharge loads once County trucks arrive at the site, unless the vendor can show that the excess delay was caused by the condition of the County truck or extreme conditions.

Access to the site shall be via paved or well-kept roads or driveways, so as not to damage County vehicles. On-site roads to the unloading area shall be of all-weather construction and wide enough to permit easy two-way truck travel. On-site road shall be maintained in reasonable condition to prevent bogging down of County vehicles and tire damage.

Site operators shall provide tow equipment service to remove any County vehicles which may become stuck at the site and will move county vehicle to the nearest hard road so as to avoid damage to County vehicles, at no extra cost to the County. Any damage to County vehicles resulting from improperly maintained access roads or hazards on vendor's property shall be the responsibility of the vendor and the costs of necessary repairs shall be substantiated by the County and forwarded to the vendor.

The vendor shall operate the site and all of its related operations in compliance with all applicable laws, ordinances and regulations of the United States of America, the State of New York and the governmental agency of the community within which the site and/or the related operations are located and any other regulatory body having jurisdiction over the same. Proof of possession and copies of necessary permits and licenses required by the New York State Department of Environmental Conservation or any federal, state, or local municipal department must be provided to the County upon request.

Payment to the vendor will be made by the County department that deposits into the landfill or transfer station based on vendor's invoice, showing date of service, number of tons received, price per ton and County truck ID number.
